

# Sodexo UK&I Net Zero Supplier Roadmap

98% of our total emissions are Scope 3, 34% of which sit within in our Supply Chain. We must collaborate with our key supplier partners if we are to achieve Net Zero 2040.

## Sep 2025\*

By **September 2025** Suppliers which represent 75% of Supply Chain emissions will need to have set their own Science Based Targets validated by SBTi

5

## Jan 2030

By **January 2030** Sodexo will only partner with suppliers that can demonstrate tangible progress through published reporting

4

## Sep 2027\*

By **September 2027** Suppliers which represent 90% of Supply Chain emissions will need to have set their own Science Based Targets validated by SBTi

3

## Sep 2023

By **September 2023** Suppliers which represent 75% of Supply Chain emissions will be required to report on Scopes 1 & 2 and provide a Carbon Reduction Plan annually

1

2

## Jan 2024
